

Mark Whitener-
 Worksite Benefits Specialist
Texas Worksite Benefits Agency

Dear Business Owner,

The Employer Mandate is one of the many complex new requirements of the Affordable Care Act (ACA) health reform law. If you currently do not have a broker to help answer any questions we can help you, or direct you if necessary. If you want an evaluation of your current plan and would like to look at other options I would like to provide our services. My name is Mark Whitener with TexasWorksiteBenefits.com. We represent a network of insurance brokers. We have successfully helped other employers achieve compliance with the mandated Healthcare Reform Law that becomes effective January 01, 2014.

Our goal is to provide you with various carriers and products, which allows you to design a health plan from a menu of excellent benefit offerings for your organization. The plans we design, are to lower health care costs, by bundling voluntary benefits with minimum participation, at little to no cost directly to you the employer. Employees get valuable benefits from quality providers with most products being offered thru the worksite.

It is urgent to act now, so your organization is in compliance with the healthcare reform requirements deadline. We look forward to working with your organization. Please do not hesitate to contact our Houston Texas office today:
